

IT'S WINTER AT LANDSYSTEMS HAPPY 2021!!

Our fairly mild weather so far has made us anxious to start a new gardening season. Our staff is here and waiting to help you with your gardening questions. Here are some frequently asked questions:

- **CAN WE PLANT NOW?** You can plant anytime the soil is not frozen. Use a combination of Soil Conditioner, steer compost, and mycorrhiza. AND don't forget the Root Simulator! Be prepared to water your new plantings during the winter.
- **DO I NEED TO WATER DURING THE WINTER?** Plants need water to survive especially newly planted plants. Water during the winter whenever the weather permits. Watering newer plantings is especially important.
- **CAN I TREAT FOR INSECTS NOW?** Nip the creepy crawlies in the bud. An application of HiYield Dormant Oil before bud break will prevent infestations of many insects. The oil suffocates any existing bugs, eggs, or larvae.
- **HOW CAN I GET MY GARDEN READY?** Now is a great time to plan your garden. Reinvigorate your garden soil with a few inches of compost such as Harvest Supreme. For new garden beds, fill with our 50/50 Garden Mix which is a combination of our own 4 year compost and Steer compost. It's not too early to pick up your 2021 garden seeds. They will probably sell out quickly. Seed starting supplies are all ready for the avid gardener.
- **CAN I PRUNE MY PLANTS?** It is best to wait until early March to prune. Watch for our Pruning Class on March 13th. Call to register now: 541-317-1901.
- **CAN I CREATE A BACKYARD OASIS NOW?** If you are dreaming of a backyard oasis, but not sure where to start, our landscape services are for you. Gary English, owner of Landsystems nursery, provides a consultation service to help bring your dream garden to reality. Call 541-382-7646 to schedule a consultation.

**PROTECT YOUR TREES FROM
DAMAGING DEER ACTIVITY
WITH OUR TREE GUARDS.**

WINTER HOURS

**MONDAY - SATURDAY 10AM-4PM
CLOSED SUNDAYS UNTIL MARCH**

**Landsystems Nursery
21336 Hwy. 20 East
